**SUCCESSFUL FUNDRAISER** - Dave Spielman of CDM Federal Programs presents Helen Clarke and Dr. Brad Black of the Center for Asbestos Related Disease with a donation of \$3,675 collected in a fundraising effort organized by CDM along with the Volpe Center and EPA contractors Marcor and SaLUT. The fund drive included a bowling tournament and bake sale on May 16 and also brought in donations from CDM employees working outside of Libby. A portion of the funds collected will be used to help Libby High School students travel to Missoula to show the video documentaries on Libby they created through a program overseen by Clarke, and the remainder will be donated to the CARD clinic.
